

SABMS: Policy 1 Work Health and Safety Policy

We aim to lead the way in work health and safety (WHS) within our industry. Members of our Organisation apply quality and safety standards that have been established to protect our clients, our contractors, our employees and members of the public. The philosophy of our Organisation is to ensure that our work is undertaken safely, with a high level of integrity and quality.

This is achieved by maintaining a Work Health and Safety Management System (WHSMS) complying with AS/NZS 4801:2001 that covers the activities of our operation.

The WHSMS has the objective of eliminating work-related injury and illness by:

- ✓ Conforming to legislative requirements, being the Act, Regulations and Codes of Practice;
- ✓ Identifying hazards related to the business's activities;
- ✓ Assessing risks associated with the hazards;
- ✓ Determining suitable control measures to minimise the risk;
- ✓ Reviewing controls to ensure they remain effective;
- ✓ Preparing documented safe systems of work
- ✓ Communicating safety issues to our employees and seeking their advice and suggestions;
- ✓ Supervising and training our personnel;
- ✓ Auditing the program to ensure aspects of the WHSMS are functioning correctly;
- ✓ Conducting periodic reviews to continuously improve the WHSMS;
- ✓ Investigating all incidents or injuries to identify root causes and implement corrective and preventative action; and
- ✓ Establishing measurable objectives and targets to chart our progress.

We request the personal cooperation and commitment of people working within our Organisation, whether they are staff, contractors or clients, to help us achieve our “Zero Harm” objective.

Please abide by our safety rules and report unsafe conditions. Also be involved and committed to a continuing program that will ensure a safe, healthy and hygienic environment for everyone. Your contribution is valued.

Greg Dalton
Managing Director
System Air Pty Ltd
